3660 Rue Hutchison, Apt. 4
Montréal, QC H2X 2H3, Canada
+1 (825) 440-0681

EDUCATION

McGill University   September 2017 – April 2021
BSc, Honours Mathematics and Computer Science, minor Linguistics   Montréal, QC, Canada
CGPA: 3.82/4.

Charles University   February – June 2019
Exchange semester, Faculty of Mathematics and Physics   Prague, Czech Republic
Grade: 1 on all courses (highest score attainable).

AWARDS

NSERC Undergraduate Student Research Award   May 2020
Governor General's Academic Medal – Bronze   June 2015

RESEARCH EXPERIENCE

Probabilistic analysis of branching processes   May 2020 – present
Research group   McGill University

Ongoing research on branching processes, headed by Luc Devroye. Studied estimation problems on Galton-Watson trees. Attended informal weekly seminars over the summer, discussing various topics related to branching processes. (Gave a presentation at three of these: one on root estimation in Galton-Watson trees, and two on generating functions and elementary analytic combinatorics.)

Sorting algorithms on manifolds   May – August 2020
Summer research project   McGill University

Research project under the supervision of Michael Lipnowski. Studied algorithms that investigate the topology of group actions on locally symmetric spaces. Work involved writing of code in OCaml and PostScript that generates illustrations of certain quotient spaces, in various models of hyperbolic geometry.

Interactive proofs   September – December 2019
Honours research project   McGill University

Semester-long research project in the Computation and Logic Group, supervised by Brigitte Pientka. Proved a theorem in constructive logic concerning the formal verification of the interactive proof assistant Harpoon and wrote OCaml code as part of ongoing work on the functional programming language Beluga.

Bytecode compiler and interpreter   February – June 2019
Individual software project   Charles University

Semester-long individual software project under the supervision of Adam Dingle. Created OPythn, a bytecode compiler and virtual machine for a subset of Python. OPythn includes support for lists, dictionaries, named and anonymous functions, objects, and classes. It is implemented in OCaml using Ocamllex for lexing and Menhir for parsing.

SUBMITTED PAPERS

S1. (with Anna M. Brandenberger and Luc Devroye) Root estimation in Galton-Watson trees. *arXiv preprint 2007.05681.* Submitted July 2020.

S2. (with Rosie Y. Zhao) Arithmetic subsequences in a random ordering of an additive set. *arXiv preprint 2012.12339.* Submitted December 2020.

Reports

R1. The OPythn programming language. Software project report, Charles University (Prague, Czech Republic, June 2019), 10 pp.

R2. Typechecking proof scripts: making interactive proof assistants robust. Honours project report, McGill University (Montréal, Québec, December 2019), 10 pp.

R3. Grid-building algorithms on manifolds. Summer research report, McGill University (Montréal, Québec, August 2020), 10 pp.

Work and Volunteer Experience

Department of Mathematics and Statistics, McGill University September 2019 – present
Student Grader *Montréal, QC, Canada*

Grading of assignments in the following courses:

- Winter 2021: MATH 457 Honours Algebra 4
- Fall 2020: MATH 323 Probability, MATH 456 Honours Algebra 3
- Winter 2020: MATH 240 Discrete Structures
- Fall 2019: MATH 235 Algebra 1

Computer Science Undergraduate Society Helpdesk September 2018 – present
Tutor *Montréal, QC, Canada*

Hold twice-weekly office hours to tutor students in a variety of undergraduate courses. Topics covered include elementary data structures and algorithms, command-line scripting, and functional programming. Recipient of the Tomlinson Engagement Award for Mentoring.

McGill Student Emergency Response Team October 2017 – present
First Responder *Montréal, QC, Canada*

On call on a weekly basis to provide emergency medical care at campus residences overnight as well as at university events such as frosh, sports games, and formals. Attend team training sessions twice a month to keep first-aid skills up-to-date.

Society of Undergraduate Mathematics Students May 2019 – January 2020
Vice President, Academic *Montréal, QC, Canada*

Oversaw academic affairs within SUMS council and acted as liaison between the undergraduate community and mathematics faculty. Duties included representing the student body at department meetings, organising midterm and final review sessions, and helping students with academic concerns.

Bakir Contracting Corp. May – August 2018
Painter *Edmonton, AB, Canada*

Exterior painting (siding, decks, fences, trim, etc.) for residential clients.

Singapore Armed Forces August 2015 – August 2017
Infantryman *Singapore*

Held appointment of machine-gun team commander in the 3rd Battalion, Singapore Infantry Regiment. Led a six-person team consisting of a medic, signaller, sensor, and two-machine gunners within a rifle platoon.

École Secondaire Beaumont Composite High School September 2014 – June 2015
Tutor *Beaumont, AB, Canada*

Tutored various students in grades 4 through 11 in chemistry, physics, math, and French.

YoWoChAs Outdoor Education Centre June – August 2014
Summer Camp Counsellor *Fallis, AB, Canada*

Led children aged 4–15 through various activities (e.g. archery, canoeing, zipline) at a sleepaway camp.

Skills

Programming Languages
C, OCaml, Haskell, Standard ML, Scheme Lisp, PostScript, `CWEB`, `MIXAL`, Python.

Technologies
UNIX, Vim, TeX, Git.

Languages
Fluent: English, French. Proficient: Mandarin, Italian.

Interests

Analysis and design of algorithms, analysis of random discrete structures, enumerative combinatorics, additive combinatorics, group theory, programming language theory and design, compilers.

Other

- Scored 10/120 on the William Lowell Putnam Mathematical Competition in 2019 (the median score that year was 2/120).
- Recipient of 0x$3.40 in Knuth reward cheques.
- Contributed sequences A335562, A338550, A338993, A339941, A339942, and A341822 to the On-line Encyclopedia of Integer Sequences.
